

# MOHAMED YUNUS A

Perambalur, Tamil Nadu

mohamedyunus.f5coders@gmail.com | [Linkedin](#) | [Github](#) | 9360461743

## Profile Summary

AI & Data Science Engineering student with strong experience in building AI-powered and full-stack applications. Skilled in Python, Machine Learning, TensorFlow Lite, PHP, JavaScript, and cloud-based deployments. Experienced in developing ERP systems, digital twin solutions, voice-based mobile applications, and real-time analytics dashboards. Passionate about scalable, secure, and performance-driven software development.

## Education

### M.A.M College of Engineering and Technology (Anna University)

Trichy, Tamil Nadu

B.Tech Artificial intelligence and Data science

CGPA: 8.11/10

2023–2027

### Government Model School Perambalur

Perambalur, Tamil Nadu

Class XII: 85.6%

2022- 2023

## Technical Skills

**Programming Languages:** Python, PHP, JavaScript, SQL

**Frontend Technologies:** HTML5, CSS3, Chart.js

**Backend Technologies:** Authentication Systems, Session Management

**Databases:** MySQL, MongoDB, IndexedDB

**AI/ML Tools:** TensorFlow Lite, NumPy, Pandas, Machine Learning Algorithms

**Cloud & Dev Tools:** AWS, Firebase, Git, GitHub, VS Code, Hostinger

## Non-Technical Skills

Teamwork, Communication, Research Writing, Leadership, Time Management

## Internships

### Software & ERP Development Intern – Ecoline LLC

Jun–Jul 2025

-Contributed to the development of the Invoice–PO–Inventory ERP system.

-Improved UI performance by 40% and reduced page load time by 30% through optimized frontend and backend logic.

### AI & Data Science Intern – Plasmid

May–Jun 2024

- Gained hands-on experience with Python, Pandas, NumPy, and basic ML algorithms.

- Learned real-time problem solving and applied AI/ML concepts to practical datasets

### AI / ML Intern – Novitech

Jan–Feb 2024

-Worked on machine learning model development, preprocessing, and evaluation.

## Projects

### Decentralized Edge AI Digital Twin for Diabetes Management

- Built an offline-capable AI system using TensorFlow Lite for glucose trend prediction and metabolic simulation. Designed real-time dashboards, sensor analytics, and a privacy-first health monitoring interface.

### ecolinellc.com – Corporate Website (Full Stack)

-Designed and deployed a complete business website with responsive UI, service sections, dashboards, contact automation, and optimized performance.

### techpulsegc.com – Website (Full Stack)

Created a modern corporate site with analytics sections, service modules, SEO optimization, responsive UI/UX, and a clean professional layout.

### Voice-Based Android Application (AI + Mobile)

Developed an Android app enabling voice-controlled interactions for task execution. Integrated speech-to-text, command recognition, and smart assistant functions.

## Certifications

Novitech– AI/ML Developer

Java Programming – Naan Mudhalvan

Full Stack Development – GUVI

## Achievements

- Trained 99+ students in Python, AI/ML fundamentals, and problem-solving as a technical mentor.
- Secured 3rd Rank Academic Topper in the B.Tech Artificial Intelligence & Data Science program
- Developed production-level ERP and billing systems used across multiple retail businesses.
- Built and deployed full-stack corporate websites (ecolinellc.com, techpulsegc.com) for real clients.

## Extracurricular Activities

• **Participated in Bhumi's Daan Utsav** – Contributed to community welfare programs and awareness campaigns.

• **Volunteer at Maatram Foundation** – Participated in and assisted with PV and events organized by Maatram Foundation.

### • Co-Founder – F5 Coders

Conducted workshops, coding bootcamps, and technical training sessions for engineering and school-level students. Built learning roadmaps for Python, AI/ML, and practical problem solving.

### • Career Guidance Mentor for 12th Standard Students

Provided career counselling, engineering course guidance, and skill-building pathways to help students choose the right academic direction after schooling.

## Responsibilities

• Created and maintained production-grade websites for businesses, ensuring responsive UI and optimized backend performance.

• **Secretary – AI&DS:** Coordinated departmental events, maintained activity reports, and ensured smooth execution of academic and technical activities.-

• Designed, developed, and deployed end-to-end ERP systems including billing, inventory, purchase orders, and analytics dashboards.
